spArticle

How to Use .tex File To use this template, first download the class file `spArticle.cls` and create a new .tex file.  
If your title, name, affiliation, or abstract is very long or contains advanced elements like mathematical symbols, yo  
After providing all the necessary information, you no longer need to add any extra packages or typographical custo  
So your .tex file may like this: `[xleftmargin=-70pt] [ bibstyle=apa, ref=yourref ]spArticle Sweet Pastry Fudan Uni`  
Introduction Long time ago...  
Analysis Point1 ... Point2 ...  
Conclusion All in all...
